**BOLLETTINO N. 1**

**Foreword**  
**By Ms Fedora Leali Parisse**  
**President FISAIE Italy**

Dear friends,

It is exactly 25 years old since Italy organized the FISEC games. I have always wanted this experience to be repeated, to give the opportunity to young people from many countries to know a small piece of our country.

Organizing the Games is very complex and almost all the countries that did it have almost always had one or two years of preparation before. This year no country had submitted the application and in a moment of enthusiasm I thought and said: let's do it in Italy.

Surprisingly, the President of FISEC Lies said OK, yes, we presented the candidature to the BUREAU. After a short time Lies Janssen called me and told me that the Bureau had accepted.

Voila journey had begun.

The title of these Games came without thinking: THE GAMES OF HOPE.

When I expressed this desire and hope to the Maltese friends, I felt great support from them. They said if you organize the Games we will help you. Brother Martin was the first to give me the confidence to embark on this journey. I did it based on this statement,

Then there were many other friends, including President Lies and all the BUREAU.

I felt supported and helped as a child at her first steps but heavily helped by a strong father who gave her security. President Giorgio Brandolin took on the weight of these games. Thanks to him, to Ernesto Zanetti, Carmen Carabott, Lawrence Fenech, Cor Weerts, Zolts Vazul and President Lies Janssen. I have moved from the world of virtual reality to reality. Thanks to him and to many friends today We are here to do this great experience together.

We seriously prepared these games despite the scarcity of athletes and the lack of participation of so many member countries. I thank you all because you are here with us. This is a vote of confidence in us. I am very grateful. We believed in these Games and as our motto says 'Believing is Winning. And we are winning here, together.

The sea is wonderful, the facilities are fantastic and we have, most of the time, a blue sky. We are all here really thanks to everyone who believed in my bizarre idea of organizing such a complex event in a few months

In these games there is really a lot of hope that the kids get to know Italy better and that they appreciate the places. We hope they enjoy themselves,

For you adults who have so much experience on their shoulders and many games under their belt, we wish that the sea, the sun and the splendid place can mitigate the inevitable and human mistakes I may have committed.

Thank you  
Fedora Leali Parisse  
President FISAIE Italy
